

Meet Multi-Disciplinary Artist Elin Gustafson

Written by

The Townshippers' Research and Cultural Foundation awarded Studio Georgeville a grant last month to enable Louise Abbott to create a short video about each member of the artists' cooperative that runs this vibrant gallery and cultural centre in the village of Georgeville on Lake Memphremagog. Louise has finished the first in the series, a look at the work of Elin Gustafson, a multi-disciplinary artist and the director of Studio Georgeville.
